MEGATHESHWARAN R

Java Full Stack Developer

ravichandranmegathesh@gmail.com | 9092734889 | Trichy, Tamil Nadu | linkedin.com/in/megathesh-ravichandran-1053061a0

PROFESSIONAL SUMMARY

Entry-level Java Full Stack Developer with a strong foundation in Core Java, J2EE, JSP, JDBC, MySQL, HTML5, CSS, and JavaScript — acquired through the Java Full Stack Development certification at Accord Info Matrix. Completed an internship at VEI Technologies Pvt Ltd and built multiple projects covering desktop and web applications. Currently expanding skills in Prompt Engineering. Eager to contribute in a software development team.

TECHNICAL SKILLS

Languages: Java, JavaScript, HTML5, CSS3
Backend: J2EE, JSP, JDBC, Core Java, OOP, Data Structures
Database: MySQL
Tools & IDEs: Eclipse, VS Code, Notepad++

CERTIFICATIONS

- Java Full Stack Development – Accord Info Matrix (2024–2025)
- Prompt Engineering – Udemy (In Progress, 2026)

EXPERIENCE

Full Stack Development Intern VEI Technologies Pvt Ltd | 2024

- Gained exposure to software development workflows and industry practices during the internship program.
- Participated in an IoT workshop covering sensor integration, microcontroller programming, and real-time data handling.
- Assisted in understanding and reviewing Java-based web application code and SDLC practices.

CERTIFICATION PROJECTS

Online Library Management System Core Java, JDBC, MySQL

- Built a desktop application for book management, user login, issue/return tracking, and due date management using Core Java and JDBC.

Customer Information Management System JSP, Java, MySQL

- Developed a web application with full CRUD operations for customer records using JSP, Java, and MySQL.

ACADEMIC PROJECTS

Smart Garbage Monitoring System IoT, Microcontroller, Sensors

- Designed an IoT-based system using ultrasonic sensors and a microcontroller for real-time bin-level monitoring and automated collection alerts.

IoT Energy Management – Telecom Operators IoT, Blynk Server, MQTT

- Built a remote energy monitoring system using Blynk Server and MQTT; published findings in the International Journal of New Innovations in Engineering and Technology.

License Plate Recognition MATLAB, Image Processing

- Implemented automatic number plate detection using MATLAB Image Processing Toolbox with ROI detection and character segmentation.

EDUCATION

B.E. – Electronics & Communication Engineering 2024
Kongunadu College of Engineering and Technology | CGPA: 7.54

Diploma – Electrical & Electronics Engineering 2021
Kongunadu Polytechnic College | 94%

SSLC 2018
Dr G. Viswanathampillai Matric High School | 79.6%
